April 2022

### Research paper publication

Asst Professors – Ms Madhu RU and Ms Vanishree GK wrote a paper titled - A study on “**Investors’ perception towards investing in domestic and foreign stock market**”. The paper has been reviewed, accepted, and published in **International Journals of Management and Social Science Research Review, Bangalore (IJMSRR)**, as the volume 8, issue 3, March 2022, page number – 10-17. Using the parameters of age, gender, education level, occupation and previous experience in investment, the professors investigated the aspect of stock market investments – national and international, over a period.

This study showed the researchers that there is a significant direct relationship between the factor of experience in investment and investment decisions. Therefore, more experienced were more likely to invest in the stock market, and vice versa. Other demographic factors such as age, gender, etc. played little to no role in the decisions and magnitude of investments in the stock market.

### Ambedkar Jayanthi – 14<sup>th</sup> April 2022

Bhimrao Ramji Ambedkar (14<sup>th</sup> April 1891 – 6<sup>th</sup> December 1956) can be seen as one of modern India’s foremost social reformers, and one of our most important founding fathers. His magnum opus, the Indian constitution, continues to hold sway over our lives today as the primary document by which our country is run.

He was a polymath, well versed in several subjects – including History, Theology, Economics, Sociology, Law, and a speaker of 8 languages. Dr. Ambedkar professionally worked as an economist and as a lawyer, exemplary at both. He was modern by today’s standards, a man who believed that India needed to progress industrially, to prosper economically. One of the few advocates in the early post-independence years for a market economy and rapid industrialization, he has been proven right in many ways today. It is quite fitting that the Indian state honours this great man as such, by commemorating his birth anniversary, considering the tremendous work that he completed. His fight against injustice and for social reform within Hindu society will be remembered forever. His life’s achievements were justly honoured with the Bharat Ratna in 1990.
